

Washing Machine Warranty

1. Warranty Coverage

- This warranty covers manufacturing defects in the washing machine under normal household use.
- The standard warranty period is 2 years from the date of purchase.
- Warranty service is provided after verification of the purchase invoice or valid proof of purchase.

2. Covered Components

- Motor and motor control components are covered during the applicable warranty period.
- Electronic control boards and major internal components are covered against manufacturing defects.
- Replacement parts may be new or refurbished parts of equivalent function.

3. Exclusions

- Damage caused by misuse, physical impact, improper installation, flooding, fire, or unauthorized repair is not covered.
- Normal wear and tear, cosmetic damage, and damage caused by unsuitable detergents are excluded.
- Damage resulting from operating the machine outside the instructions in the user manual is not covered.

4. Warranty Service

- Keep the purchase invoice and product serial number available when requesting service.
- Contact an authorized service center for inspection and repair.
- Transportation or installation charges may apply where specified by the service policy.

5. Safety Reminder

Disconnect the washing machine from electrical power before attempting any inspection. Internal repairs should be performed only by qualified service personnel.
